Hi guys--given the likelihood that we will not be able to connect by phone tonight, if you could give Tom and me a sense of major changes made in the version of the rule that came to us this morning, it would really be helpful.

I'm stuck in IN and don't have my comments with me, but the key one I remember is that there wasn't a clear description of how we came to our final decision on the units where we are changing from what we proposed. Is the text starting at p. 42 (titled Changes to our Proposal) new text for that purpose?

Thanks.

Subject: Conf. Call Today (Now)?

Shaun and Carl –

Are you guys in the office now? Could we have a call sometime in the next 90 minutes or so with Janet to have you tell us what changes were made in the Wyoming Regional Haze FR notice? I note that it now runs to 1558 pages, according to my computer. What did we add that more than doubled it?

Please let us know if you can do a call now. Thanks.

Tom
